Rome cum Privilegio. S. P. et permissu Supp: 1620.

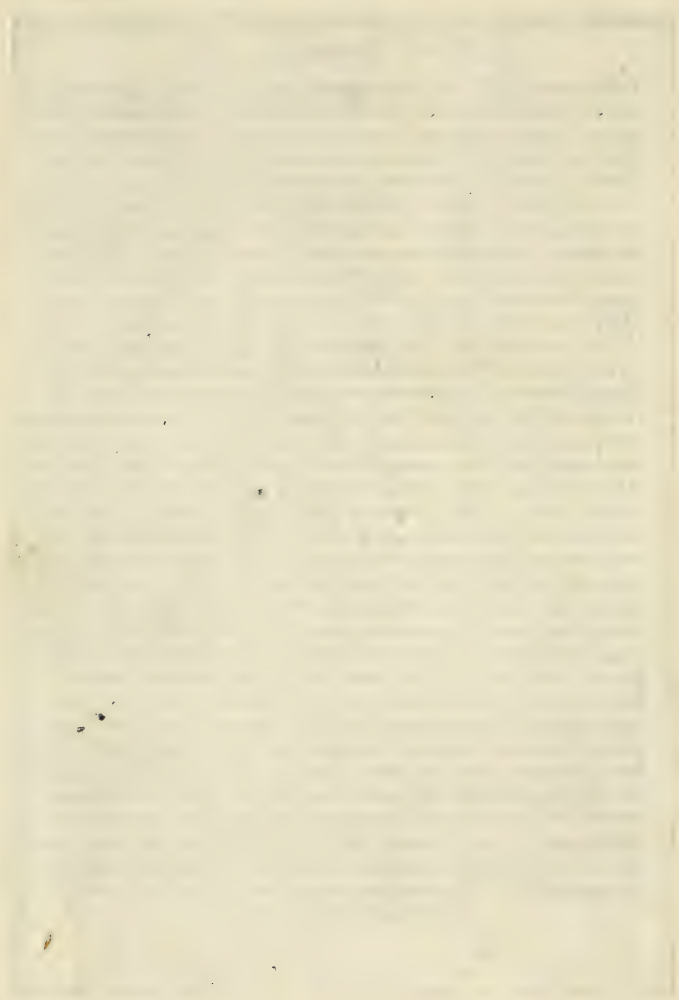

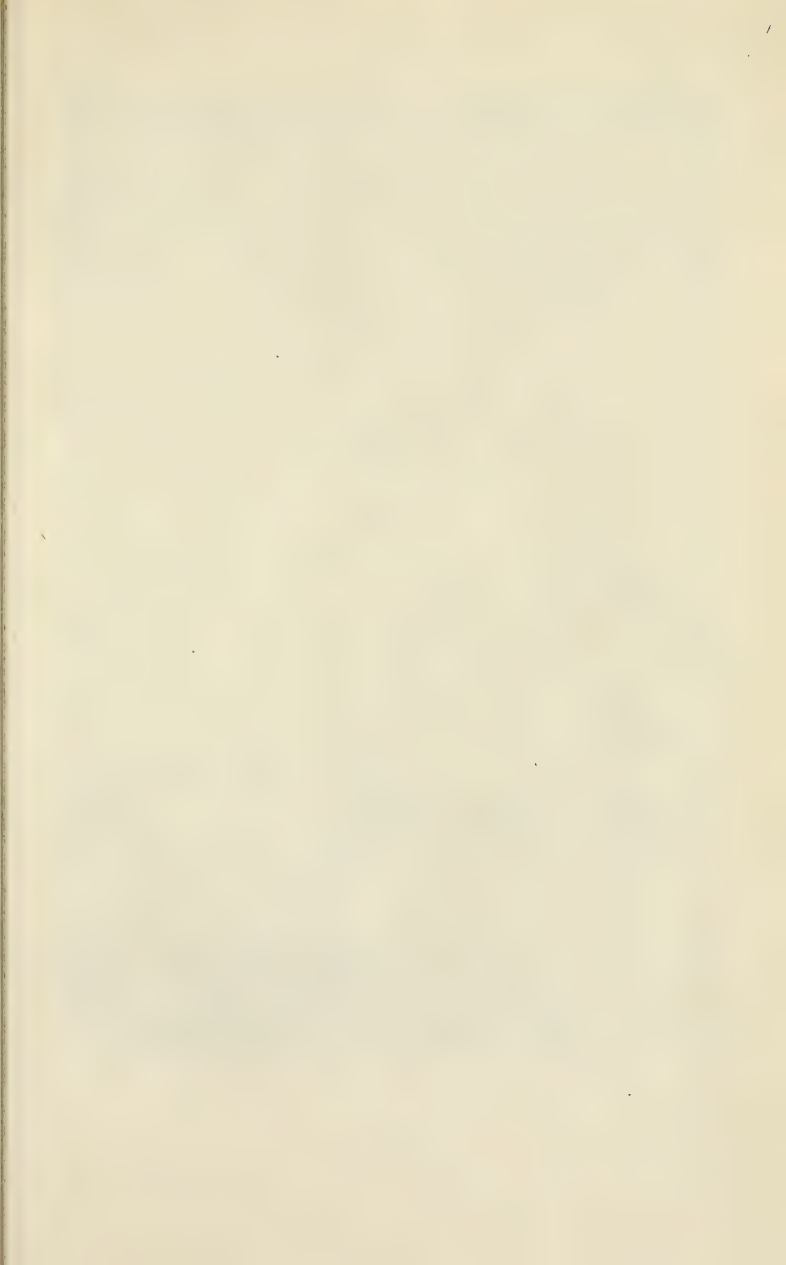

Habes, amice Lector, nullo tuo negotio, nullo ferè sumptu; quæcumque ex temporum iniurijs in agro Puteolano, Baiano, Cumanoque supersunt quæ tuis oculis subiecimus, exorsi ab ipso in mare desinentis Pausilipi iugo; quæ mons, opere ingenti à Cocceio perforatus, Neapoli comeantes Puteolos, Baiasque transmittit. proxima littori Nesis insula, et Charia in medio foeto; et littori imposita Mergulline, Dei genitricis Virginis templo et sui Sinceri cineribus læta; non longe a Virgily Maronis tumulo, quem hædera, mirtusque circumambiunt, et sponte Laurus enata supernè semper inumbrat. Hinc ad Lacum Agnani specus canum; cui ab euentu nomen; tum Vulcani forum; phlegreus antea campus; perpetuis ignibus exundans; dein Puteoli; olim Dicarchia; cedito in iugo mari alluuntur. postea Leucogei montes, et cum Dianæ templo, Amphitheatrum, Epis copi Ianuary martyrio, quam munere gladiatorio, ædifico a Nerone in Tiridatis regis gratiam, longe nobilius. Adiacet Neptuni templum antiqui operis; et Academia; Ciceronis uilla; et Mons Gaurus, nunc verè barbarus, ammissa uetere omni specie. Apud Cumas Arcus foelix, et ipsæ Cumæ, templumque Apollinis in arce summa, ac in ipso euboicæ rupis latere excisum Sybillæ antrum. Mons nouus inde uisitur, unica nocte, ex ignea uoragine cineres, sauillaque eiectante conflatus; exhausto pænè lucrino Lacu, ignis ui, et cinerum copia. Ad eundem etiam Auernus, et antrum falso ab incolis Sybillæ creditum, et Mercurij, Apollinisque templa, et Villa Pompei Magni, et, ubi quoddam Baiæ, Arx Baiar, et portus, et ingentes thermæ, vulgo Trulli, Aedesque Dianæ, et Veneris. Nec prætereundum Miseri promontorium, cum Portu Iulio, et Luculli uilla; Adde Centum cellas, Traconariumque antrum, ubi Nero mirabilem piscinam incæperat, excipiendo quicquid calidarum aquarum totis Baijs contineretur. Adde alteram Luculli uillam, quæ prius G. Marij, et Circum; nunc Sabbathi mercatum dicunt; et Baulos Agrippinæ uillam cum ipsius sepulcro. Postremò Palus Acherusia, poetarum fabulis clara; nunc Colutianus Lacus; et cisternæ ueteres, et Villa Seruily Vacie perlustrandæ. Plura quidem ruinis obruta delitescunt, quorum pulchritudinem deplorare magis, quam ex illorum uestigijs coniectari licet. Tu interim, dum nostru tibi æs uadat industria, hæc qualiacumque cequi, bonique consule, et nostris laboribus, lætus, frue re.
